Incumbent Worker Training

Current workers would be trained to acquire skills that enable them to move into higher-skilled and higher paid jobs within your company.

This would allow you to hire job seekers to backfill incumbent workers' positions.

You would be reimbursed for the cost of training participants, and the materials needed to complete the training.

On the Job Training (OJT)

OJT is training conducted by an employer for a paid participant.

Its purpose is to engage participants in productive work that provides the knowledge and skills essential to the performance of a job—and is limited to the duration, as appropriate, to the occupation for which the participant is being trained.

We reimburse you up to 75% of your participant's wage rate.

Customized Training(CT)

CT is designed to meet the specific requirements of an employer by training participants (*new hires*) in specific skills.

It requires documentation of your commitment to continue to employ individuals upon successful completion of their training.

We reimburse you up to 50% of the participant's wage rate.

Internships

Internships allow participants to gain hands-on experience to develop skills for a specific job.

We will pay your intern's wages.

Employer Eligibility

- Must have a valid Worker's Compensation Insurance Policy
- Is in compliance with all local state and/or federal laws
- Accessible to program participants
- In good standing with the New York State Department of Labor

Objectives

- Develop and retain a skilled workforce
- Reduce employee turnover
- Build employee loyalty
- Fill hard to fill positions
- Groom employees for specific positions
